EDUCATION

Illinois Institute of Technology – Chicago, IL | *Masters in Information Technology & Management, GPA: 3.6 / 4.0* **Aug 2024 – May 2026**

Charutar Vidya Mandal University, Gujarat, India | *Bachelors in Computer Application, CGPA: 8.42 / 10.0* **Mar 2020 – May 2023**

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, TypeScript, C++, C, PHP.

Software & Frameworks: Spring Boot, React, REST APIs, .NET, HTML, CSS, Node.js, Next.js, Django.

Database & Cloud: Oracle, Firebase, PostgreSQL, MySQL, MongoDB, AWS Cloud, Oracle Cloud Infrastructure (OCI).

DevOps & Tools: Git, Docker, GitHub Actions (CI/CD), Linux, Pytest, Postman, Jira.

WORK EXPERIENCE

Software Engineer | Jay Chemicals Industries Pvt Ltd, Gujarat, India

Oct 2023 – Jul 2024

- Built and maintained scalable REST APIs endpoints using React, Spring Boot, and relational databases (MySQL / Oracle SQL) for donor management, beneficiary tracking, and ERP-style record management, ensuring 99% uptime for 1,200+ clients.
- Integrated Email & SMS notification system in Spring Boot, triggered automatically on user sign-ups and donations, eliminating manual website checks and enabling real-time alerts for the team boosting volunteer and donor participation by 20%.
- Automated deployments to AWS using Docker, worked cross-functionally to integrate CI/CD pipelines with Pytest for unit and integration testing and performed 20+ peer code reviews to ensure high code quality and reliable releases.
- Engineered data pipelines for website user activity analytics using React, Spring Boot REST APIs, and MySQL, reducing manual reporting workload by 40% through optimized query execution and structured data flows.

Research Assistant | Jay Chemicals Industries Pvt Ltd, Gujarat, India

Jun 2023 – Sept 2023

- Executed preprocessing, geospatial analysis, and feature extraction on satellite-based oceanographic datasets using statistical aggregation, normalization, and temporal summarization techniques to generate high-quality, model-ready data for marine analysis.
- Achieved 96% reliability in sea-level characteristic assessment, enhancing the accuracy of marine environmental reports.
- Extracted features from oceanographic datasets using normalization, temporal aggregation, and missing-value handling techniques, improving the quality of model-ready data by at least 20%.

PROJECTS

International Students Dashboard

- Developed a responsive web-based student dashboard using Next.js, React, and REST APIs, providing international students with centralized onboarding checklists, academic resources, and task-tracking capabilities.
- Engineered reusable React components and responsive layouts optimized across desktop, tablet, and mobile devices, improving maintainability and delivering consistent cross-device user experience and deployed on AWS.
- Integrated API-driven data handling and interactive dashboard features to streamline access to student resources, progress tracking, and essential international student information.

Campus Resource Finder – Android application

- Developed an Android-based mobile application using Java, XML, and SQLite, implementing resource search and location-based features to help students easily discover campus facilities and services.
- Implemented Google Maps API integration, advanced search filters, pagination, and multilingual support to improve resource discovery, navigation efficiency, and accessibility for diverse users.

Fit Flow – Gym Management System

- Built a full-stack Gym Management System using React and Spring Boot, implementing secure user authentication and login integration enabling seamless member onboarding and reducing manual admin effort.
- Delivered a real-time member history tracking module using React and Spring Boot REST APIs, cutting record retrieval time by 50%.

CERTIFICATES

- Meta Front End Developer (Coursera)
- IBM Full Stack Software Developer (Coursera)
- Certificate in Penetration Testing & Digital Forensics (CPTDF – cybersecurityindia.org)
- Prompt Engineering (Vanderbilt University – Coursera)
- Data Engineering for AI and ML Pipelines Specialization (Eduureka)
